# MUELLER® MAXXLINE™ PACKAGE CHILLER

## STANDARD FEATURES

- The maxxLine™ chiller is available with operating capacities of 1 to 40 horsepower.
- Compact, stainless steel brazed plate evaporators housed inside provide efficient heat transfer and minimize maintenance efforts.
- Insulated, stainless steel tanks enhance the chiller's durability.
- The rugged construction of this painted, packaged unit allows for indoor or outdoor use.
- Adeptly supported by a factory-installed Programmable Logic Controller, a user-friendly, reliable HMI touch-screen control delivers real-time temperature and pressure data.
- For added convenience, place an optional secondary remote HMI touch-screen control in your cellar location.
- The unit's stainless steel process pumps are resistant to corrosion and oxidation.
- Choose from air-cooled or water-cooled options.

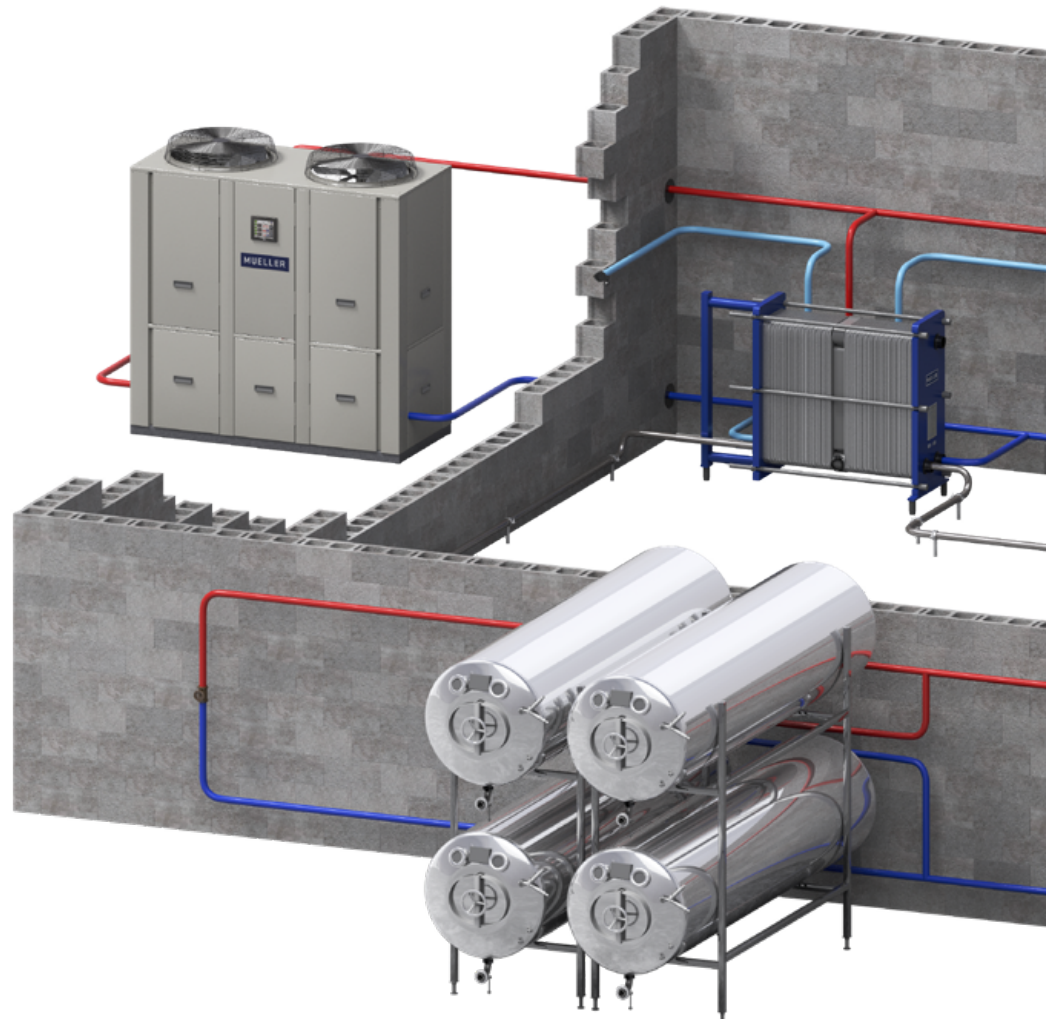

# THE HEART OF YOUR BREWERY

## MAXXLINE™ PACKAGE CHILLER

When your brewery is sizable, and cooling lines must cover long distances, Paul Mueller Company's maxxLine™ package chiller is the answer, supplying essential cooled glycol water throughout your facility for reliable, consistent cooling. Ideal for 8 to 15 BBL breweries with high flow rates and hefty cooling demands, these chillers keep your operation running at optimum capacity. Increase energy efficiency and the speed of your commercial brewery chilling process with a maxxLine assist. The maxxLine package chiller also works in unison with an Accu-Therm® plate heat exchanger to instant cool liquid before it enters your storage tanks. This process ensures the highest quality product possible.

Need assistance sizing your chiller? Our experts work with your brewery team to size the appropriate maxxLine model to complement each brewery chilling application and attain peak performance. Let us help you get the most out of every inch of your brewery.

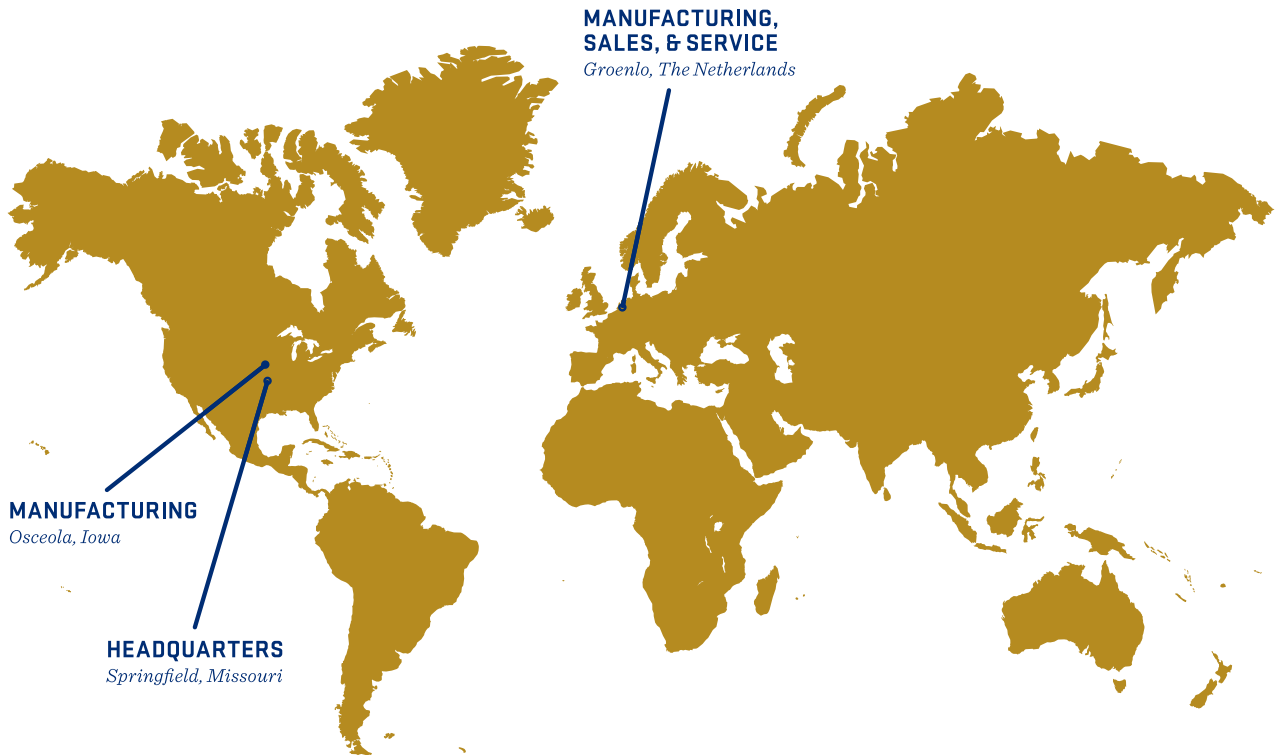

Paul Mueller, Our Founder

# PAUL MUELLER COMPANY

At Paul Mueller Company, we are united by a belief that the only quality that matters is quality that works for life. With every piece of processing equipment we build, our goal is to have lasting impact. This collective vision has led us from a small sheet metal shop to a global supplier of heating, cooling, processing, and storage solutions. Our equipment allows farmers, brewers, and engineers to keep their products fresh and their inventory strong. Whether our equipment preserves milk in rural areas or helps manufacture medicine with broad health benefits, we are making an impact across the globe.
